One day, in my mailbox there was a sample. It was a small bottle, and it said "Made with Real Lemons". I thought it was some lemon juice, so I was excited to try it. Later that day, I made a salad for lunch. I took the small bottle, and poured the stuff onto my salad. I took a few bites. It tasted sour like lemons, but it was terrible! Soon, I started to feel very sick. I checked the bottle, and read it more carefully. It wasn't lemon juice... It was dishwashing soap! I was so embarrassed. Now, I don't like anything that is lemon flavored.

Maybe you already know what a vegetarian is. Vegetarians don't eat any meat, such as chicken, or pork. But, do you know what a **vegan** is? Veganism is a diet about respect for all living creatures. Vegans don't eat anything that comes from an animal. Like vegetarians, they don't eat meat. But vegans also don't have milk, cheese, eggs, or butter. They also don't wear leather or fur. They try to make all their choices about health and kindness.
